Several years ago, at one time-when I was a nervous wreck, mentally and physically-l guess morally, too. It made a well man of me; and I was "down and out" as the saying goes. Why, I couldn't sleep, was weak, nervous, irritable, sick-the result of dissipation, hard work and worry, too, for after I realized my condition I did worry, any man would, or woman, either, if they found themselves in a similar condition. Well, 'was like this, a friend of mine said:

'Look here, fellow, you can't go on like this, you'll be a dead man 'fore long," and then he told me of Cadomene Tablets. I decided to "try" Cadomene Tablets, but I had not much faith in them, for I had taken nearly everything I had ever heard of-all alike-they did me no good.

Now I sleep, eat, enjoy life, have strength in my tissues, do not feel nervous any more, and the pains have disappeared from my head and back-all told I feel fine-a new man-able and glad to meet my duties, whether business, social or domestic. Life looks good now from every angle, and I owe my abounding strength, my keen enjoyment and my health to Cadomene Tablets and I don't think I am overstating it when I say that Cadomene Tablets actually saved my life
